## "Even & Odd Gumballs!"

The children of grade 1 did this activity to understand the concept of 'Odd and Even' numbers better. They drew a jar with numbers as gumballs inside it. To differentiate, the even numbers were coloured 'blue' and odd numbers were coloured 'red'. This is one of the various activities which was done to understand this concept. Other than this, they found out if their date of birth, when added, comes out even or odd. All of them enjoyed the activity.

## Interview Knowledge

A list of questions was given to the children of class VII to make them aware of the interview knowledge which was related to the life of their parents. The children very skillfully asked their parents some questions like a press reporter and answered those questions as well. Also, they noted the answers in their diaries, a glimpse of which you can see in the video.

## Teacher's Day

Our teachers are the most significant part of our lives. They are the ones who craft us into good citizens and better persons. They teach us to face each and every challenge in life with courage. In India, Teachers' Day is celebrated on 05 September as a mark of tribute to the contribution made by the teachers to society. So, this Teacher's Day the students of grades foundation to 10 performed various activities to express their gratitude towards their teachers through online mode. Also, Guru Mantra was recited by Vaishnavi of grade 6, Akansha of grade 8 and Saishrita of grade 10.
