NOVEMBER 2021

Life cycle of a butterfly

The kids of grade LKG learnt the life cycle of a butterfly by performing an activity. In the activity, a craft of the same was shown to the children along with a video for a better understanding. They thoroughly enjoyed the activity.

Events all the way!

The month of November was joyous and filled with excitement as grades Foundation to 1 and 6 to 10 were practising for their Annual Function while grades 2 to 5 were rehearsing for 'Masti ki Pathshala'.

The events were scheduled in the last week. Different themes were chosen for each grade based on which they performed. Yet again we conducted the events virtually and they were highly appreciated by all.
