

FEBRUARY & MARCH 2022

Strawberries with heart shape

To introduce the shape of heart, an art activity was performed in grade LKG . In this activity, the kids made strawberries using heart shapes. They learnt about the heart shape and the names of the fruits which are heart shaped. The kids were enthusiastic while performing the activity and enjoyed the pasting work in their drawing files.

**In just a small wink,
I made this paper chain link
It is all colors and pink
Did you hear it go clink, clink, clink?**

True North: Sharing & Caring

In grade LKG, an activity was performed on the basis of sharing and caring. In the activity, the teacher made a big picture on a sheet and gave it to the group of kids. They shared the same drawing and filled colours in the same sheet. By doing this activity, they learnt the importance of sharing.

Shape: Diamond

Diamond is not just a diamond, it can be sweets, flowers or kites as well. Foundation students learned 'kite making with earbud printing' to know the diamond shape.

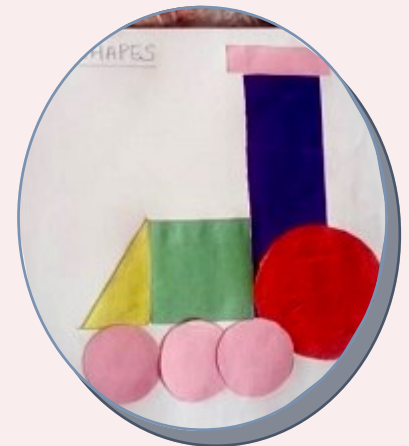

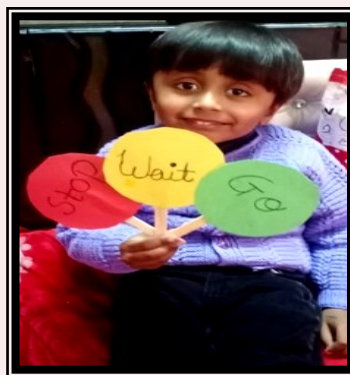

This activity helped to improve their fine motor skills also.

Revision of shapes: Train

Making a paper train with the help of different shapes was a fun-filled experience and a good fine motor skills development activity for Foundation students.

Traffic Lights

Students of grade Foundation had fun while learning traffic lights. They were thrilled to know that lights can control the movement of people and vehicles. Following were the highlights of the activity:

- Red lights say stop.
- Yellow lights indicate to look right, left and right and to wait till the light turns green.
- Green light indicates to go/proceed.

Graduation Day: Grade UKG & 1

“Graduation - is a time to celebrate new beginnings. It is warm memories of the past and big dreams for the future”.

Kindergarten graduation is an exciting milestone for children as it's their first step towards a future full of hopes and possibilities. It marks a new beginning that adds new dimensions to their school life and the journey they begin towards knowledge and education.

To make it significant, we celebrated a Virtual Graduation Day for grades UKG & 1. Children of grades Foundation to 1 participated with full enthusiasm. There were dances, songs and 'Thank You' songs by the graduating classes. The celebration started with a 'Welcome Song' by the teachers. Children looked lovely in their graduation gowns and hats. To bless and encourage them to be great learners, our vice-principal handed over the graduation certificates to them.

It was indeed a joyous and memorable day for the little ones, their families and teachers.
