

## APRIL 2022

### Pre-Primary

### Scribbling

Handwriting is a complex skill that takes time to learn. Scribbling lays the foundation for handwriting. Scribbling helps children to develop their fine motor skills, improves concentration and gives fun.

### Sand pit play

Playing in the sand is terrific for developing motor skills, building hand-eye coordination, and strengthening muscles. Children exercise their fine motor skills when they learn how to properly hold a shovel in their hand. And their gross motor skills get a workout when they attempt to lift a bucket filled with sand.

## Baisakhi

✿ Children of grade Foundation were explained the meaning and importance of the festival of Baisakhi.

They were informed that it is the celebration of the harvest season.

Students worked in groups to explore the important element of the celebration i.e. making of the wheat crop. It was a take away for them. The activity was enjoyed by all.

### Primary & Secondary

### "Germination of seeds"

The students of Grade 5 performed an activity on germination of seeds in science class.

Sprouting of grams and pulses was done by the children. They studied the parts of seed, with the help of the germinated seeds and learnt that seeds need proper air, water and sunlight to grow. They had lot of fun while performing this activity.

### Science laboratory

Welcoming new session, with enthusiasm and zeal for learning, Grade 7 students visited Science laboratory and performed two experiments i.e. To study the starch test on a leaf and the affect of light on rate of photosynthesis. Students thoroughly enjoyed the session.

## Earth Day

1. Earth day is observed every year on 22 April to mark the anniversary of the birth of the modern environmental movement in 1970.
2. In the Universe, Earth is the only planet where life is possible and so it is necessary to maintain this natural asset.
3. World Earth Day is celebrated to increase awareness about the importance of the planet. With this purpose, students of grade 4 did a poster making activity. They designed beautiful posters with a message to Save Mother Earth.

## Combined Assembly

A combined assembly was conducted on 13.4.22 for grade 1 to 10 .It was the first assembly after the reopening of school after pandemic.The students were excited and participated enthusiastically. In the assembly ,the importance of special days of the month of April like Baisakhi,Dr.Ambedkar Jayanti and Good Friday were shared with the students.

**"Thank you flower"**

Teaching kids to be “grateful” is important because instilling the sense of the gesture goes beyond good manners. Gratitude can help them become better human beings.

**"Nature walk"**

Grade LKG & UKG kids went for a walk together and looked for things to be grateful for, like the beautiful leaves, flowers, grass, sun etc. during the activity kids were watering plants and knew the importance of plants like they give us air, food, shelter, and medicine.

**Gratitude towards body parts: Blindfold Activity**

Students of kindergarten played a game during their True North class. Teacher blindfolded the child and the kid will identify the toy by touching it. And the other kids will call the child's name and he/she will move towards those kids.
