ATS VALLEY SCHOOL

Health and Physical Activities

In order to build up the fitness level of students, the school conducted Health and Physical Education activities for students of Grade 10. Students participated enthusiastically in the activity.

Science Experiment

Students of Grade 4 had fun learning about lesson - "Solids, Liquids and Gases" by doing experiments on balloons. All the students enjoyed while doing the experiments .

Life Skills: How to board and deboard the bus

Students of Pre Primary section were taught the correct way to board and deboard the bus. They were also told to maintain a queue when they are walking, keep their bus clean and throw the trash in the dustbin before sitting or getting down the bus. The students were taught that the dustbins kept in buses should be used for throwing wrappers only, no liquid food should be thrown in those dustbins. The importance of following traffic rules and signs is well known to everyone. So, the kids were given special education on the importance of following traffic rules and what to do at what signal. They were told even if the bus driver tries to jump any red light, the students should ask the driver to stop there and then.

Grandparents' Day

The pre-primary section organized an event to celebrate Grandparents' Day on the school premises recently. Students of Grade Foundation and Kindergarten expressed their love, respect and gratitude to their grandparents through their splendid song, dance and drama performances. It was an Endeavour of the school, to teach the young generation the irreplaceable role that grandparents play in their lives and also to inform the grandparents about the values their grandchildren learn at school.

Learning Measurement

Students of Grade 1 were taught the concept of measurement in a fun way. Teachers used innovative props such as weighing machine and balance to make the students understand the concept well.

Show and Tell

In order to develop the speaking skills and to overcome shyness and the fear of public speaking, School conducted a "show and tell" activity for the children at the school campus. The child had to speak about any object given to him/her and say minimum of 6- 8 sentences about it.
