JULY 2022

Pre-Primary

Shapes with sticks

In grade LKG children arranged sticks on Triangle and square shapes. This activity help them to develop their fine motor skills and construction too. Children enjoyed a lot while doing this activity.

Buliding the towers

Grade UKG children performed an activity that is making a tower with cones. Children did this activity with lots of patience and concentration. They enjoyed it a lot.

White chickpeas activity

Time is very precious, so we should always do our work on time. Grade UKG children performed an activity on time management, they picked white chickpeas from one plate to another with a cloth clip. They have to Collect maximum chickpeas within a minute. With this activity they learnt how to finish work on prescribed time. They enjoyed a lot while doing it.

Primary - Secondary

Van Mahotsava week

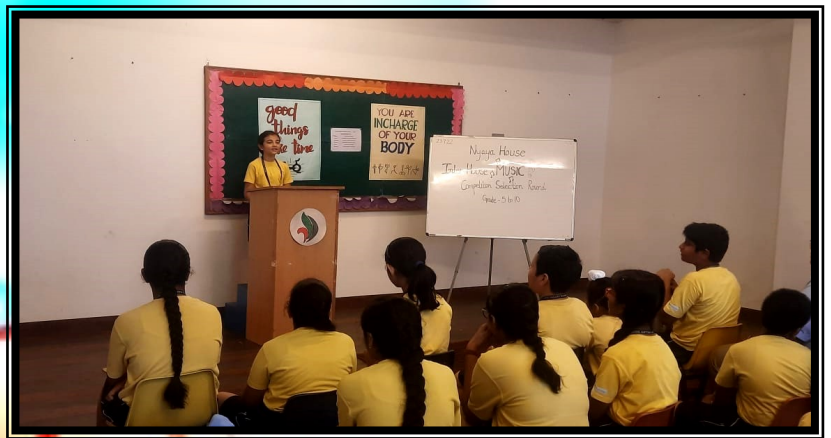

The school had organised a Craft based activity for grades 1-4. Also making an effort to improve handwriting of students and for encouraging them in keeping a good hand, Inter house Punjabi handwriting competition was organised for grades 5 -7 on the occasion of Van Mahotsava week in school premises. All the students enthusiastically participated in the activity and competition. Punjabi handwriting competition was done to motivate the students & they enjoyed doing the activities.

Rakhi Making activity

On 23.7.22 the school had organized a Rakhi Making activity for grades 1-2 and Rakhi making competition for grades 3-4. All the students participated with zeal and enthusiasm and prepared colourful Rakhis and made the event successful.

Also to bring out the singing talent of the students, solo singing selection round was held during house activity period for grades 5 to 10 in school premises. All the students enthusiastically participated in the activity and competition. The theme for the selection was patriotic . The children sang the songs with lot of passion, confidence and patriotic feeling. They enjoyed the activity and competition.

"Dream house"

The students of grade 5 performed a science activity on houses. They drew their dream house using their imagination and coloured it. They enjoyed the activity a lot.

**"Science walks forward on two feet, namely theory and experiment."
-Robert Andrews Millikan**

Giving students an opportunity to learn through simulation, experience and education strengthens their confidence, knowledge, and allows small room for error.

Students of grade 10 understood how to properly read and measure a blood pressure by the use of manual equipment called Sphygmomanometer. Later they practiced taking blood pressure of their classmates.

It was a very fruitful interactive session.

True North

Character Trait- Sharing and Caring

ACTIVITY- Story Telling- Dolly and Polly learn to share

The students of Grade 1 enjoyed story telling activity with the help of two dolls and twelve pieces of a cake. They learnt about sharing equally by counting pieces of cake that each doll gets. They enjoyed the participation as they could keep the cake pieces for each doll and learnt to share equally.

CRAFT ACTIVITY- Pot and flowers / Big paper fish

As part of ongoing True North Trait of “sharing and caring” the students of Grade 1 participated in a craft activity. They made a big pot of flowers and a fish. They learnt to share material like cuttings, oil pastels and other decorating material. They also learnt to wait for their turns while doing this activity. The students relished the colorful and pleasing result of doing work together in harmony.

Team Work: Tug-of war

In order to improve co-ordination with others and build trust in a team, students of Grade 8 participated in Tug-of war activity. They were super excited and participated with full energy. They felt that the most exciting part of the activity was when they were able to break the ropes while doing the activity. They learnt to work together through differences and showcased great team work.
